## EXPERIENCE

### 11.2008 - Present

Software Developer

*Fax.de GmbH*

Initial on-site work in Germany, followed by a remote work.

Main responsibilities: creating mobile and web applications for sending faxes via Internet.

#### Projects:

- Website and web application - the application allows clients to send mainly faxes but also letters and text messages.  
It was created as a single-page application.

*Frontend technologies:* HTML, Sass, JavaScript, jQuery, Bootstrap, AngularJS.
